

A Lifetime of Care for Women and Children

Nurturing generations, since 1948

Gynaecology • IUI • Obstetrics • Midwifery • Fetal Medicine • Genetics • Neonatology • Paediatrics

Every Journey Begins with You!

Whether you're planning your first pregnancy, expecting your baby, recovering after birth, or caring for your growing child, every stage brings new questions, decisions and emotions.

At Fernandez, we believe healthcare should do more than treat medical needs. It should help you feel heard, informed and supported at every step.

For over seven decades, families have trusted us for safe, respectful and evidence-based care that combines experienced specialists with genuine compassion. From adolescence through pregnancy, and every stage of a woman's life, we're here to support you and your family.

Why Choose Fernandez?

- 75+ years of trusted maternity and women's healthcare
- 24/7 Doctor-led labour wards
- Continuous labour support from trained Doulas
- India's first hospital-based Baby Spa
- Complete care for women, babies and children under one network.

Planning for Pregnancy

Healthy Beginnings Clinic

A healthy pregnancy begins before conception. Our specialists help you prepare your body for pregnancy through personalised health assessments, nutritional guidance, lifestyle advice and pre-pregnancy counselling, giving you the confidence to start your journey on the strongest foundation.

Fertility Assessment & Counselling

If pregnancy isn't happening as expected, we're here to help you understand why. Our fertility specialists carefully evaluate both partners, explain your options clearly and recommend the most appropriate next step, without rushing into unnecessary treatments.

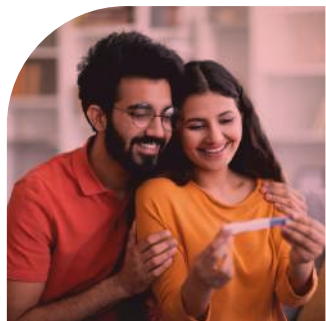

IUI Fertility Treatment

Many couples think IVF is the first fertility treatment, but IUI is often the primary recommendation for many suitable couples.

IUI is a simple, minimally invasive procedure that helps sperm reach the egg more easily.

Our fertility specialists will help determine whether IUI is the right option for you before considering more advanced treatments.

Pregnancy Care

Supporting you through every stage of pregnancy.

Pregnancy Care & Delivery Packages

Comprehensive pregnancy packages that bring together consultations, scans, investigations and expert support in one coordinated plan.

Early Pregnancy & Growth Scans

Regular scans to monitor your baby's growth, development and overall well-being.

High-risk Pregnancy Care

Personalised care for pregnancies that need closer monitoring, with support from doctors who specialise in managing pregnancy-related complications.

Fetal Medicine & Genetic Counselling

Specialist scans, prenatal screening and genetic counselling to assess your baby's development and help you make informed decisions about your pregnancy.

Multiple Pregnancy Care

Specialised care for twins, triplets and other multiple pregnancies, with coordinated support throughout pregnancy.

Labour and Birth

Supporting the birth experience that's right for you.

Doctor & Midwife-led Labour Wards

Our labour wards are supervised around the clock by senior doctors and midwives, ensuring that experienced clinical decisions are available whenever you need them.

Midwifery Care

Experienced and skilled midwives support you throughout your pregnancy, providing you with a normal and undisturbed birth experience.

Doula Support

Our trained Doulas stay by your side throughout labour, providing continuous emotional reassurance, comfort measures and practical support so you feel informed, calm and confident during childbirth.

Birthing Packages

Our maternity packages cover every stage of your hospital stay, making your birth experience more comfortable, predictable and stress-free for you and your family.

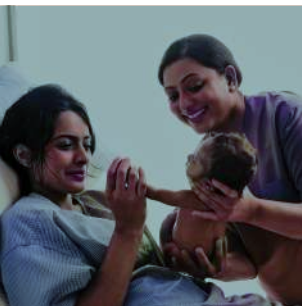

After Your Baby Arrives

Because your care continues after delivery.

Postnatal Care

Recovery takes time. Our team provides comprehensive care after childbirth, including medical follow-ups, breastfeeding support, guidance, nutrition advice and on-going care, for your recovery and wellbeing.

Postnatal Fitness with 'Core & More'

Our postnatal fitness programme helps mothers safely rebuild strength, improve recovery and regain confidence after childbirth.

The Fernandez Baby Spa

India's first hospital-based Baby Spa combines infant massage, hydrotherapy and developmental guidance from paediatricians and physiotherapists to support your baby's early growth, comfort and wellbeing.

Newborn Care

Expert care for your newest family member.

Neonatal Intensive Care Unit (NICU)

If your baby needs intensive medical care, our Level II and Level III NICUs provide advanced treatment for premature babies, low birth weight newborns and babies requiring specialised support.

Family-centred NICU Care

Having a baby in the NICU can feel overwhelming. We keep parents informed, involved and supported throughout their baby's journey because healing is strongest when families remain connected.

24/7 Neonatal Expertise

Experienced doctors and highly-trained nurses provide attentive specialised care for newborns, with advanced monitoring and 24-hour medical support.

Growing With Your Child

From your baby's first vaccination to adolescence.

Vaccinations & Development Checks

Routine vaccinations, growth monitoring and developmental checks help your child stay healthy and on track through every stage of childhood.

'Little Fernz' Children's Inpatient Care

When your child needs to stay in the hospital, 'Little Fernz' provides expert care from children's doctors in comfortable, child-friendly spaces that keep parents close.

Specialist Care for Children

From common childhood illnesses to conditions that need specialist treatment, our team of children's doctors, nurses and other specialists works together to provide compassionate, family-centred care.

Women's Health Through Every Stage of Life

Because your healthcare doesn't end after pregnancy.

Adolescent Gynaecology Clinic

Helping teenage girls navigate puberty, menstrual concerns, PCOS, hormonal changes and early gynaecological issues in a comfortable, confidential environment.

Women's Health Clinic

Whether you're experiencing heavy periods, pelvic pain, fibroids, endometriosis or hormonal concerns, our specialists work with you to find the right diagnosis and treatment.

Menopause Clinic

Managing menopause is easier with the right support. We provide personalised treatment, hormone evaluation, bone health assessment and lifestyle guidance to help you feel your best through every stage of menopause.

Advanced Gynaecology & Minimally Invasive Surgery

Helping you recover faster and get back to life.

Keyhole (Laparoscopic) Surgery

Small incisions mean less pain, minimal scarring, shorter hospital stays and quicker recovery while effectively treating many gynaecological conditions.

Outpatient Hysteroscopy

A simple outpatient procedure that helps diagnose and treat uterine conditions without hospital admission or general anaesthesia.

Cosmetic & Reconstructive Gynaecology

Personalised procedures designed to restore comfort, confidence and wellbeing following childbirth or other life changes.

Our Team-based Approach to Care

Every woman is unique, and so is every pregnancy. At Fernandez, a team of doctors, midwives and specialists works together to support you throughout your pregnancy, birth and beyond.
